

Custom Function #3 and HTML/CSS Declarations

```
//🟢setup Function - will run once
setup = function() {
<body>
<h1> "Discover my favorite saxophone players"</h1>
<head>
<style><h1>font-family: 'Georgia', serif; </h1></style>
  size(600, 400);
  background(255, 83, 73);

  fill(255,0,0);
  textSize(25);
  text("My favorite saxophonists are ..." , 200, 60);

  textSize(20);
  text("Click anywhere to find out!" , 200, 100);
}

//Variable Declarations Go Here

//🟢draw Function - will run on repeat
draw = function(){

If(mousePressed){
  fill(random(0, 255), (random(0, 255), (random(0, 255)));
  <ul>
text("John Coltrane", random(-100,600), random(-100,500))
text("Charlie Parker", random(-100,600), random(-100,500))
</ul>
}

};

</body>
```
